

Email Setup for Mac Mail

Welcome to Mail

Welcome to Mail

You'll be guided through the necessary steps to set up your mail account.

To get started, fill out the following information:

Full Name:

Email Address:

Password:

? Cancel Go Back Continue

Enter your name in the Full Name box.

Enter your email address, for example: support@beecreek.net

Enter your email password then click Continue

Make sure Account Type is POP and not IMAP

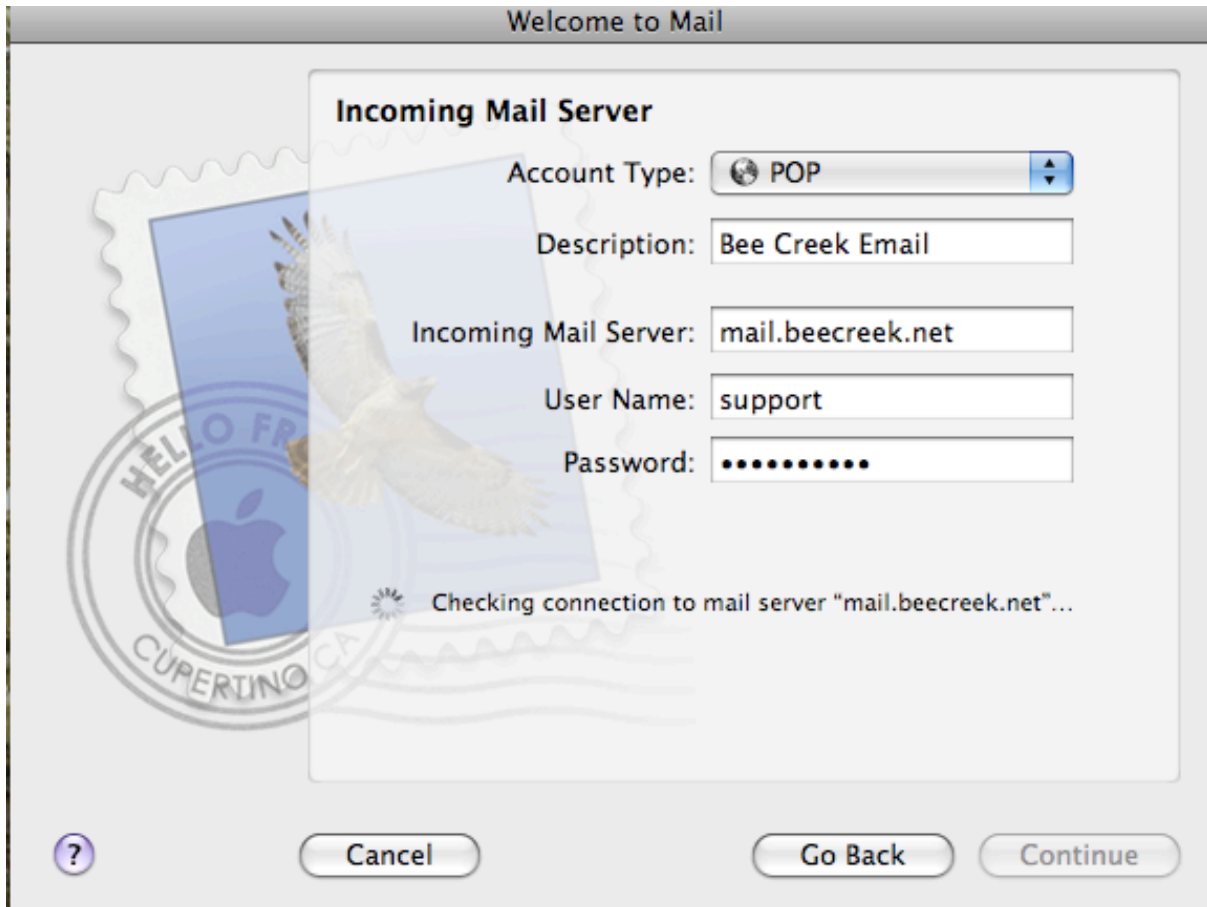

You can enter Bee Creek Email in the Description box

Incoming Mail Server: mail.beecreek.net

Username should be already entered if not it's the first part of your email address without the @beecreek.net

Password should be entered as well from the previous page. If not this is the password you set up for your email address.

Click on Continue

The program will verify the information you entered. This can take up to a minute to process.

You can enter Bee Creek Email in the Description box

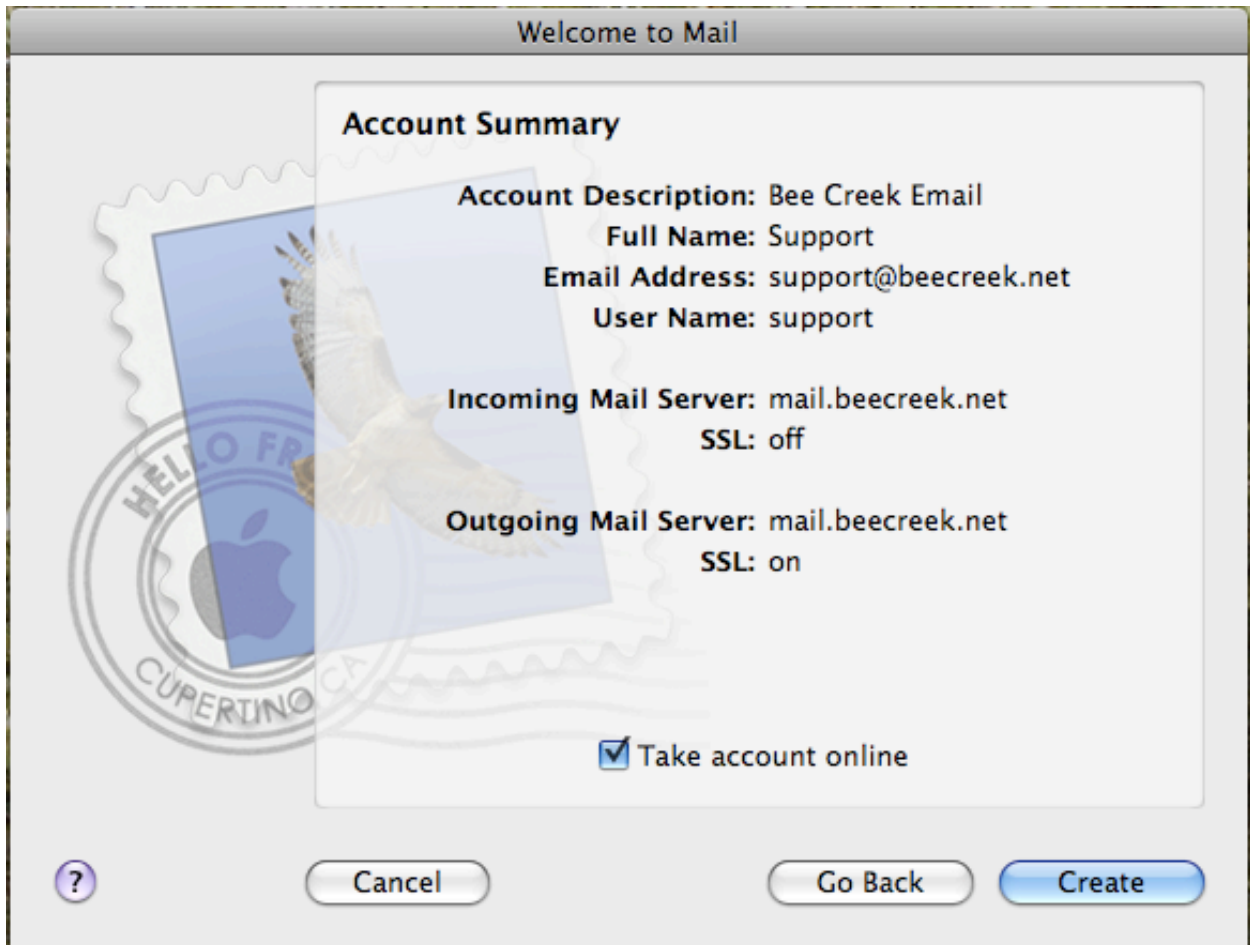

Outgoing Mail Server: mail.beecreek.net

Make sure there is a check in the Use Authentication box

Click Continue

You will get a Verify Certificate box. Click on Connect to continue.

Finally on the Account Summary it will verify the information you have entered. If you have entered anything in error you will not get to this page. If all of your information is correct click on Create to finish the process.
